SUPPORT SERVICES GOALS

Support services are essential to the educational program. The Board serves as trustee of District facilities and overseer of school operations for the purpose of providing the facilities and services which support a thorough and efficient educational program.

In order to provide support services that are supportive of the educational program, the Board develops goals which will support the overall educational program. The goals of the support services program include a:

1. safe and pleasant physical environment for teaching and learning for the school community through the continual evaluation of the facilities;
2. transportation program for the safe transporting of students to and from school;
3. food services program which supports the nutrition programs through participation in the National Child Nutrition Programs and
4. safety program which evaluates personnel, buildings, vehicles, equipment and supplies to maintain a safe environment and to minimize the effects of a disaster.

SAFETY PROGRAM

The Board will make efforts to provide for the safety of all students, employees and members of the school community present on District property and at all District-sponsored events at other sites. The Board directs the administration to develop a safety program which is reviewed on an annual basis.

The Superintendent/designee has responsibility for the safety program of the District and develops written procedures to comply with the Public Employment Risk Reduction Act (PERRA) regulations and policies.

The practice of safety is a part of the instructional plan of the District through educational programs. The educational program includes instruction in traffic and pedestrian safety, fire prevention, in-service training and emergency procedures appropriately geared to students at different grade levels.

All staff are encouraged to participate in the proceedings of the Health and Safety Committee by providing recommendations that ensure a safe environment for all.

REPORTING OF HAZARDS

The Board is concerned for the safety of students and staff members and, therefore, attempts to comply with all State and Federal statutes and regulations to protect them from hazards that may result from industrial accidents or from the presence of asbestos materials.

Toxic Hazards

Toxic hazards exist in chemicals and other substances used in the school setting such as in laboratories, science classrooms, kitchens and in the cleaning of rooms and equipment.

The Superintendent appoints an employee to serve as the District's Toxic Hazard Preparedness (THP) officer. The THP officer will:

1. identify potential sources of toxic hazard in cooperation with material suppliers who shall supply the THP officer with material safety data sheets (MSDS);
2. ensure that all incoming materials, including portable containers, are properly labeled with the identity of the chemical, the hazard warning and the name and address of the manufacturer or responsible party;
3. maintain a current file of MSDS for every hazardous material present on District property;
4. design and implement a written communication program which:
 - A. lists hazardous materials present on District property;
 - B. details the methods used to inform staff and students of the hazards and
 - C. describes the methods used to inform contractors and their employees of any hazardous substances to which they may be exposed and of any corrective measures to be employed;
5. conduct a training program for all District employees to include such topics as detection of hazards, explanation of the health hazards to which they could be exposed in their work environment and the District's plan for communication, labeling, etc. and
6. establish and maintain accurate records for each employee at risk for occupational exposure including name, social security number, hepatitis B vaccine status, results of exams, medical testing and follow-up procedures for exposure incidents and other information provided by and to health care professionals.

In fulfilling these responsibilities, the THP officer may enlist the aid of county and municipal authorities and others knowledgeable about potential toxic hazards.

Asbestos Hazards

In its efforts to comply with the Asbestos Hazard Emergency Response Act, the Public Employment Risk Reduction Act and the Asbestos Abatement Contractors Licensing Act, the Board recognizes its responsibility to:

1. inspect all District buildings for the existence of asbestos or asbestos-containing materials;
2. take appropriate action based on the inspections;
3. establish a program for dealing with friable asbestos, if found;
4. maintain a program of periodic surveillance and inspection of facilities or equipment containing asbestos and
5. comply with EPA regulations governing the transportation and disposal of asbestos and asbestos-containing materials.

The Superintendent appoints a person to develop and implement the District's Asbestos-Management Program which will ensure proper compliance with State and Federal law and the appropriate instruction of staff and students.

The Superintendent also ensures that, when conducting asbestos abatement projects, each contractor employed by the District is licensed pursuant to the Asbestos Abatement Contractors Licensing Act.

Occupational Exposure Training

All employees with occupational exposure are required to participate in a training program at the time of their initial assignment to tasks where occupational exposure may occur.

Follow-up training for employees is provided one year after their initial training. Additional training is provided when changes such as modifications of tasks/procedures or institution of new tasks/procedures affect employees' occupational exposure.

A record of attendance at occupational exposure training is completed and maintained by the THP officer following each training session. Such records are maintained for three years from the date of the training.

Records Availability

All records required to be maintained are made available upon request for examination and copying by the employee, employee representatives and under the provisions of PERRA. Medical records, however, are not made available to employee representatives or other persons without written consent of the employee.

Liability Disclaimer

Nothing in this policy should be construed in any way as an assumption of liability by the Board for any death, injury or illness that is the consequence of an accident or equipment failure or negligent or deliberate act beyond the control of the Board or its officers and employees.

FIRST AID

The school nurse develops guidelines for the emergency care of any student or staff member who is injured or becomes ill at school or while engaged in a school-sponsored activity. The guidelines are reviewed by the Board prior to implementation.

The guidelines provide for at least one person in each building to have special training in first aid. In the case of an emergency involving a student, the emergency medical authorization form is followed and efforts are made to contact the parent/guardian.

Emergency Medical Form
Staff Handbooks

FIRST AID

The following requirements must be adhered to by all personnel.

1. A school nurse or other trained person is responsible for administering first aid in each building. Although each nurse is assigned a school or group of schools for providing regular nursing services, a nurse is subject to call from any school if needed. An emergency medical service will be called in case of serious illness or injury.
2. The parents of all students are asked to sign and submit an emergency medical authorization form which indicates the procedure they wish to be followed in the event of a medical emergency involving their child. The forms are kept readily accessible in the building administrators' offices of each school.
3. Only emergency care and first aid are provided. A physician or nurse provides training for first-aid treatment and emergency care for various types of illness and injury. Use of medications is limited to topical applications as directed by a physician for certain types of injuries or to such medication as might have been officially authorized for an individual child.
4. In cases in which the nature of an illness or an injury appears serious, the parent(s) are contacted and the instructions on the student's emergency card are followed. In extreme emergencies, arrangements may be made for a student's immediate hospitalization whether or not the parent(s) can be reached.
5. No elementary student who is ill or injured is sent home alone. Junior and senior high students may be sent home if the illness is minor and the parents, who have authorized such dismissal on the emergency medical forms, have been informed in advance.

Whenever a student must be taken home by anyone other than the school nurse – for illness or any other reason – the building principal (or person taking the student home) should have an adult companion (preferably an available faculty member) accompany him/her. This is for the purpose of propriety and self-protection.

6. Board-approved procedures are followed to guard against athletic injuries and to provide care and emergency treatment for injured athletes. Coaches and trainers meet all requirements of the State Board of Education.

(Approval date: November 19, 2003)

(Re-approval date: August 1, 2007)

BLOODBORNE PATHOGENS

Staff/students incur some risk of infection and illness each time they are exposed to bodily fluids or other potentially infectious materials. While the risk to staff/students of exposure to body fluids due to casual contact with individuals in the school environment is very low, the Board regards any such risk as serious.

Consequently, the Board directs adherence to universally recognized precautions. Universally recognized precautions require that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV, HBV and/or other bloodborne pathogens.*

To reduce the risk to staff/students by minimizing or eliminating staff exposure incidents to bloodborne pathogens, the Board directs the Superintendent to develop and implement an exposure control plan.

The plan shall include annual in-service training for staff and students, first-aid kits in each school building and each student transportation vehicle, correct procedures for cleaning up body fluid spills and for personal cleanup.

Training is followed by an offer of immunization with hepatitis B vaccine for all staff who are required to provide first aid to students and/or staff. The vaccine is also offered to all staff who have occupational exposure as determined by the administrator.

[Adoption date: November 19, 2003]

LEGAL REFS.: Public Employment Risk Reduction Act; ORC 4167.01 et seq.
20 USC 8901
29 CFR 1910.1030

CROSS REF.: GBEA, HIV/AIDS (Human Immunodeficiency Virus/Acquired Immune Deficiency Syndrome) (Also JHCCA)

* Bloodborne pathogens are pathogenic microorganisms that are present in human blood and can cause disease in humans. These include, but are not limited to, hepatitis B virus (HBV) and human immunodeficiency virus (HIV).

EMERGENCY/SAFETY PLANS

The Board acknowledges that the safety and well-being of students and staff are high priorities. Although emergencies cannot be predicted, effective prevention and management strategies are used to minimize the effects of emergency situations arising in the District.

An emergency is defined as an event which threatens the actual safety and security of students, employees or visitors of the District or whose impact threatens the feeling of safety and security, both of which are detrimental to a positive learning environment. Emergencies include, but are not limited to, fire, natural disasters, medical emergencies, industrial accidents, suicide, death of a student or employee, acts of violence, trauma and terrorism.

Comprehensive School Safety Plans and Drills

The Board directs the Superintendent/designee to prepare emergency/safety plans for use by staff and students. The plans are posted in each classroom and other areas accessible to students.

The comprehensive safety plan sets a protocol for addressing and responding to serious threats to the safety of the school property, students, staff, volunteers and visitors. Each protocol includes procedures deemed appropriate by the Board or governing authority for responding to threats and emergency events including, but not limited to, notification of appropriate law enforcement personnel, calling upon specified emergency response personnel for assistance and informing parents of affected students.

The administration reviews the plan annually, considering the most current information dealing with the subjects, as well as making relevant information about the plan known to the community. When the comprehensive safety plan is used, assessment of the way the emergency was handled is completed by the Board and the administration. Suggestions for improvement, if necessary, are solicited from all stakeholders.

State law determines the type and number of drills the District must conduct in order to adequately prepare staff and students for emergency situations. Drills provide both students and staff with practice in responding to emergency conditions should such conditions occur.

A copy of each school building's current comprehensive safety plan and blueprint is filed with the law enforcement agency that has jurisdiction over the school building and, upon request, the fire department that serves the political subdivision in which the school building is located. A copy of each school building's current comprehensive safety plan and floor plan is filed with the Ohio Attorney General. The floor plan is used solely by law enforcement responding to an emergency in the building and is not a public record.

The District's comprehensive safety plan must be updated every three years and within 90 days whenever a major modification to an individual school building necessitates changes in that building's plan.

Administrative Rules/Protocols

The Board directs each building principal/designee to develop administrative rules/protocols regarding the topics listed below. The rules/protocols are kept in the central office and produced to board of health sanitarians, upon request, during board of health inspections.

1. A list of dangerous or recalled products.
2. Radon rules or protocols including evidence that the school has been built radon resistant or has been tested for radon within the past five years.
3. An asbestos management plan including evidence of inspection for asbestos within three years, evidence of periodic surveillance within the past six months and a copy of the yearly written notice to the public referencing asbestos inspection and the availability of the asbestos management plan for review.
4. A school-wide safety or crisis management plan, which provides a protocol for responding to any emergency events and a protocol providing for immediate notification to the appropriate fire department and board of health in the event of any spill or release of a hazardous substance on school grounds.
5. Guidance regarding bloodborne pathogen risk reduction.
6. Procedures for administering medications to students.
7. A written comprehensive safety plan addressing:
 - A. safety management accountabilities and strategies;
 - B. safe work practices;
 - C. accident analysis procedures;
 - D. job safety analysis procedures;
 - E. safety committees and employee involvement strategies;
 - F. employee safety and health training;

- G. treatment of sick or injured workers;
 - H. safety and health hazard audits;
 - I. ergonomics;
 - J. transportation safety;
 - K. identification and control of physical hazards;
 - L. substance abuse;
 - M. school violence prevention and
 - N. personal protective equipment.
8. A written chemical hygiene plan, which sets forth procedures, equipment, personal protective equipment and work practices that are capable of protecting employees and students from the health hazards of chemicals in the school.
 9. Material safety data sheets for every hazardous chemical used in the school building or on the school grounds for cleaning, maintenance or instruction. (These must be kept where the chemicals are stored in addition to the central office of each building.)
 10. Protocols on staff and student hand washing.
 11. No-smoking signs.
 12. The District's integrated pest management policy.
 13. Protocols for using automated external defibrillators (AEDs).
 14. Protocols for responding to in-school crises, including student crime, suicide, death of a student or employee, acts of violence (including bomb threats and school intruders), trauma, accidents and/or terrorism.
 15. Protocols for the management of students with life-threatening allergies.

EMERGENCY CLOSINGS

The Superintendent may close the schools, dismiss students early or delay the opening of schools in the event of hazardous weather or other emergencies which threaten the safety or health of students or staff members. It is understood that the Superintendent takes such action only after consultation with transportation and weather authorities.

In the event that the Superintendent/designee shortens the school day by no more than two hours due to hazardous weather, either at the beginning or the end of the given school day, that day will not be designated a calamity day.

Parents, students and staff members are informed early in each school year of the method of notification in the event of emergency closings or early dismissals.

Prior to September 1 of each year, the Board adopts a resolution specifying a contingency plan under which the students make up days the schools were closed because of calamity days. These make-up days are beyond the number of calamity days provided for by law.

The contingency plan cannot in any way conflict with the collective bargaining agreement.

The District may make up excess calamity days by increasing the length of one or more school days in increments of one-half hour.

CRISIS MANAGEMENT

A crisis can occur at any time and has the ability to make a significant impact on members of the community. A crisis is defined as any event which threatens the actual safety and security of students, employees or visitors of the District or whose impact threatens the feeling of safety and security, both of which are detrimental to a positive learning environment.

There are unlimited possibilities for crises that could impact the District. These include, but are not limited to, suicide, death of a student or employee, acts of violence, trauma and accidents.

In recognizing the need to be proactive in preparing for possible crises, the Board directs the Superintendent to prepare a Crisis Management Plan which addresses:

1. the primary goal of preventing a crisis from occurring;
2. appropriate means of dealing with a crisis in the District, including who shall serve as the primary spokesperson for the District and the steps in which the plan shall be carried out and
3. assessment of the way the crisis was handled with suggestions for improvement in the future, if necessary.

The administration annually reviews the Crisis Management Plan, considering the most current information dealing with the subject, as well as making relevant information about the plan known to the community.

BUILDINGS AND GROUNDS SECURITY

Buildings and grounds constitute one of the greatest investments of the Board. It is in the best interest of the District to protect such investments.

Security includes maintenance of a secure building and protection from fire hazards, faulty equipment and unsafe practices in the use of electrical, plumbing and heating equipment. The Board shall cooperate with local law enforcement agencies and fire departments and with insurance company inspectors.

Access to buildings and grounds outside of regular school hours is limited to personnel whose work requires such access. A security control system is established which limits access to buildings to authorized personnel and guards against entrance to buildings by unauthorized persons.

VANDALISM

Parents and students are made aware of the legal consequences of vandalism. Students, employees and citizens of the District are urged to report any incidents of vandalism to property belonging to the District together with the name(s) of the person(s) believed to be responsible. The Board may offer a reward for information leading to the arrest and conviction of any person who steals or damages Board property.

The Superintendent is authorized to sign a criminal complaint and to press charges against perpetrators of vandalism against school property. The Superintendent is further authorized to delegate, as he/she sees fit, authority to sign such complaints and to press charges.

Any student found guilty of any form of vandalism or defacement of school property may be subject to suspension or expulsion.

Parents are liable up to the amount provided by law for the willful destruction of property by a minor in their custody or control. If parents are found liable for monetary damages and are unable to make restitution, the Board may allow the parents to perform community service for the District instead of repayment of the damages.

BUILDINGS AND GROUNDS MAINTENANCE

The Board provides facilities which accommodate the enrollment and meet fire and building codes and safety regulations. These facilities are in accordance with the philosophy of education and educational goals of the District; are of a quality and quantity to support pupil learning relative to objectives specified in courses of study; provide guidance and counseling areas of quantity and quality to implement the District plan for guidance services; and provide first-aid space for temporary placement or isolation of injured or ill pupils.

Each building shall have facilities to support the work of the credentialed staff by providing teacher work space, filing facilities, access to a telephone and access to a room for private conferences.

Buildings shall be well maintained and free from hazards. Annual fire and health inspection reports are on file in each building principal's office.

[Adoption date: November 19, 2003]

ENERGY CONSERVATION

Measures should be taken to conserve energy in order to protect natural resources and to minimize the District's expenditures for costs of energy consumption. The Superintendent, supported by the school staff, develops and implements operating procedures to reduce energy consumption in the schools. The Board also directs the Superintendent and the staff to continually assess the consumption of energy and make recommendations for improved use of energy resources.

One major component of the District's energy management plan is periodic building energy audits which may take into consideration the:

1. type of construction of the building;
2. mechanical systems (heating, cooling, ventilation);
3. lighting and use of glass;
4. use of the building (during the day, after school, evenings or weekends);
5. utility bills or measurement of fuel consumed;
6. local weather;
7. age of the building;
8. floor space and
9. condition of insulation.

The Board may approve the purchase and installation of energy conservation measures via shared savings and/or installment contracts. The Board may dispense with competitive bidding in awarding such contracts in accordance with law.

INTEGRATED PEST MANAGEMENT

The Board is committed to providing students with a safe learning environment free of pests and pesticides. The Board directs the administration to develop regulations for the proper use and control of pesticides and chemicals. In order to keep the facilities and grounds safe, the administration may investigate a variety of chemical and nonchemical methods that are designed to control pests effectively while minimizing potential exposure to students and staff.

Whenever possible, pesticides are administered during noninstructional periods and/or during school breaks. If it becomes necessary to administer pesticides during times school is in session, the administration will provide notice to affected persons, prior to the date and time of the pesticide application, of the general area where the pesticide is to be applied and the telephone number to contact the school for more information.

COMPUTER/ON-LINE SERVICES
(Acceptable Use and Internet Safety)

Technology can greatly enhance the instructional program, as well as the efficiency of the District. The Board recognizes that careful planning is essential to ensure the successful, equitable and cost-effective implementation of technology-based materials, equipment, systems and networks. Computers and use of the District network or on-line services support learning and enhance instruction, as well as assist in administration. Computer networks allow people to interact with many computers; the Internet allows people to interact with hundreds of thousands of networks. All computers are to be used in a responsible, efficient, ethical and legal manner. Failure to adhere to this policy and the guidelines below will result in the revocation of the user's access privilege. Unacceptable uses of the computer/network include but are not limited to:

1. violating the conditions of State and Federal law dealing with students' and employees' rights to privacy;
2. using profanity, obscenity or other language which may be offensive to another user;
3. copying commercial software and/or other material in violation of copyright law;
4. using the network for financial gain, for commercial activity or for any illegal activity;
5. "hacking" or gaining unauthorized access to other computers or computer systems, or attempting to gain such unauthorized access;
6. accessing and/or viewing inappropriate material and
7. downloading of freeware or shareware programs.

The Superintendent/designee shall develop a plan to address the short- and long-term technology needs and provide for compatibility of resources among school sites, offices and other operations. As a basis for this plan, he/she shall examine and compare the costs and benefits of various resources and shall identify the blend of technologies and level of service necessary to support the instructional program.

Because access to on-line services provides connections to other computer systems located all over the world, users (and parents of users who are under 18 years old) must understand that neither the school nor the District can control the content of the information available on these systems. Some of the information available is controversial and sometimes offensive.

The Board does not condone the use of such materials. Employees, students and parents of students must be aware that the privileges to access on-line services are withdrawn from users who do not respect the rights of others or who do not follow the rules and regulations established. Violators may be subject to other disciplinary sanctions. A user's agreement is

signed to indicate the user's acknowledgment of the risks and regulations for computer/on-line services use. The District has implemented technology-blocking measures to prevent students from accessing inappropriate material on school computers. The District has also purchased monitoring devices which maintain a running log of Internet activity, recording which sites a particular user has visited.

“Harmful to minors” is defined as any picture, image, graphic image file or other visual depiction that:

1. taken as a whole and with respect to minors appeals to a prurient interest in nudity, sex or excretion;
2. depicts, describes or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts or lewd exhibition of genitals or
3. taken as a whole, lacks serious literary, artistic, political or scientific value as to minors.

Annually, a student who wishes to have computer network and Internet access during the school year must read the acceptable use and Internet safety policy and submit a properly signed agreement form. Students, staff and Board members are asked to sign a new agreement each year after reviewing the policies and regulations of the District.

COMPUTER/ON-LINE SERVICES
(Acceptable Use and Internet Safety)

Terms and Conditions for Internet Use

Acceptable Use - The purpose of the Internet is to support research and education in and among academic institutions in the U.S. by providing access to unique resources and the opportunity for collaborative work. Internet access must be in support of education and research and consistent with the educational objectives of the District. Use of other organizations' networks or computing resources must comply with the rules appropriate for those networks. Transmissions of any material in violation of any U.S. or state regulation is prohibited. This includes, but is not limited to: copyrighted material, threatening material, obscene or sexually explicit material.

Privileges - The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. (Each student who receives access will be part of a discussion with a faculty member pertaining to the proper use of the network). Based upon the acceptable use guidelines, system administrators deem what is inappropriate use and their decisions is final. Also, system administrators may cancel access at any time as required. The administration, faculty and staff may request the system administrator to deny, revoke or suspend specific user access.

Netiquette - You are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to:

1. Be polite. Do not write or send abusive messages to others. Use appropriate language. Do not swear, use vulgarities or any other inappropriate language. Do not distribute pornography, obscene or sexually explicit materials.
2. Do not reveal your personal address or phone numbers or that of other students or colleagues.
3. Note that electronic mail (E-mail) is not guaranteed to be private. People who operate the system do have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
4. Do not use the network in such a way that you would disrupt the use of the network by other users (e.g., downloading huge files during prime time; sending mass E-mail messages).
5. All communications and information accessible via network should be assumed to be private property.
6. Students will not respond to unsolicited online contact.

Security - Security on any computer system is a high priority, especially when the system involves many users. If you feel you can identify a security problem you must notify a system administrator. Do not demonstrate the problem to other users. Do not use another individual's access. Do not give your password to any other individual. Attempts to log in to the system as any other user will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access.

1 of 2

Vandalism - Vandalism will result in cancellation of privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user. This includes, but is not limited to, the uploading or creation of computer viruses.

It is possible for students to purchase goods and services via the Internet, and these purchases could potentially result in unwanted financial obligations. This activity will be prohibited access through the Reading Community Schools.

Students are not allowed to subscribe to listservers or news groups unless specific permission is provided by the parent/guardian in writing and permission of the teacher.

Exceptions - All Terms and Conditions for Internet Use as stated in this document are applicable to the District. These Terms and Conditions for Internet Use reflect the entire agreement of the parties and supersedes all prior oral or written agreements and understandings of the parties. These Terms and Conditions for Internet Use are governed and interpreted in accordance with the laws of the state of Ohio and the United States of America.

The District will not be held liable for:

1. information stored on District diskettes, hard drives or servers;
2. information retrieved through District computers, networks or online resources;
3. personal property used to access District computers, networks or online resources or
4. unauthorized financial obligations resulting from use of District resources and accounts to access the Internet.

Any District student or employee may apply for Internet access. To do so, one must complete the Computer Network Agreement Form.

(Approval date: November 19, 2003)

COMPUTER NETWORK AGREEMENT FORM

I hereby apply for a student/employee account on the District computer network:

Circle one: student employee Board member other

Name: _____

School: _____

Home Address: _____

City, State, Zip: _____

Home Phone: _____

I have read and I understand this computer policy and its guidelines and regulations and agree to abide by all of the rules and standards for acceptable use stated therein. I further state that all information provided for the creation of this account is truthful and accurate.

Signature: _____ Date: _____

Parental Release Form
(for students under 18 years of age)

I/We, _____, the parent(s) of (student name) _____, have read and understand the computer policy and its guidelines and regulations and we agree to its terms and conditions. We confirm our child's intentions to abide by the terms and conditions therein, and we agree to supervise our child's use of the computer network from home or outside of the classroom.

Signature: _____ Date: _____

STUDENT TRANSPORTATION SERVICES

The transportation policies of the Board are aimed at providing a safe, efficient and economical method of getting students to and from school. It is the desire of the Board that the transportation schedule serve the best interests of all students and the District.

In addition to that required by law, the Board provides school bus transportation to all elementary and secondary school students to the extent determined by the administration and approved by the Board. This may vary because of safety conditions that prevail in certain areas of the District. All regulations governing student transportation are in accordance with the Ohio School Bus Operation Regulations issued by the Ohio Department of Education, Ohio State Highway Patrol, Ohio Department of Highway Safety and as required by State law.

The transportation program is under the direction of the transportation supervisor who is responsible to the Superintendent.

Private School Transportation

The District provides transportation for students who attend private schools in compliance with State law. The Board has the authority to make payment to the parents of such students in lieu of transportation.

EEAC, School Bus Safety Program

WALKERS AND RIDERS

The Board provides transportation for resident elementary students in grades kindergarten through 8, who live more than two miles from school, and for all students with physical or mental disabilities which make walking impossible or unsafe.

The transportation of high school students is not required.

Accordingly, the administration designates and the Board approves areas of residence from which students are provided transportation to schools.

The Board may create exceptions to the established areas when:

1. in the judgment of the Board, walking conditions to the student's school are extremely hazardous and/or
2. because of overcrowding and the necessity to assign students to another building, the Board deems transportation necessary.

The Board authorizes the staff responsible for administering the student transportation program to require student identification as a prerequisite to riding a school bus when this is deemed necessary.

SCHOOL BUS SAFETY PROGRAM

The primary consideration in all matters pertaining to transportation is the safety and welfare of student riders. Safety precautions shall include the following.

1. The transportation program meets all state requirements regarding the approval of bus drivers, standards for buses and safe speeds.
2. Drivers of Board owned, leased, contracted or operated vehicles other than school buses have met state training qualifications and the vehicles have been equipped for safety and signage according to State law.
3. Special limits are set for students if terrain, age of student, traffic, lack of sidewalk or student's health has a bearing on the student's safety.
4. Bus stops are limited, where feasible, so that students from several homes can meet safely at a central point for group pickup.
5. Emergency evacuation drills are conducted regularly throughout the school year to thoroughly acquaint student riders with procedures in emergency conditions.
6. All vehicles used to transport students are maintained in such condition as to provide safe and efficient transportation service with a minimum of delay and disruption of service due to mechanical or equipment failure.
7. Students in the primary grades are given instruction on school bus safety and behavior within the first two weeks of the school year.

STUDENT CONDUCT ON SCHOOL BUSES

The Board furnishes transportation in compliance with State law. This fact does not relieve parents of students from the responsibility of supervision until such time as the student boards the bus and after the student leaves the bus at the end of the school day.

Students on a bus are under the authority of, and directly responsible to, the bus driver. The driver has the authority to enforce the established regulations for bus conduct. Disorderly conduct or refusal to submit to the authority of the driver is sufficient reason for refusing transportation services or suspending transportation services to any student once proper procedures are followed.

The Board authorizes the Superintendent or other administrators to suspend a student from school bus riding privileges only for a period of up to one school year. The only due process required is notice to the student of an intended bus riding suspension and an opportunity to appear before the administrator considering the suspension before it happens. The administrator's decision is final.

The Board's policy regarding bus riding privileges must be posted in a central location in each school building and made available to students upon request.

After Board approval, regulations regarding conduct on school buses, as well as general information about the school transportation program, are available to all parents and students.

VIDEO CAMERAS ON TRANSPORTATION VEHICLES

The Board, as part of the District's ongoing program to improve student discipline and ensure the health, welfare and safety of all those riding school transportation vehicles, may utilize video cameras on all school vehicles transporting students to and from curricular, cocurricular and extracurricular activities.

The video cameras monitor student behavior and the recordings are hereby stipulated as admissible evidence in student disciplinary proceedings. The videotapes may be student records subject to confidentiality and are subject to Board policy and administrative regulations.

The Superintendent is directed to develop administrative regulations governing the use of video cameras in accordance with the provisions of law and this policy.

DRUG TESTING FOR DISTRICT PERSONNEL REQUIRED
TO HOLD A COMMERCIAL DRIVER'S LICENSE

School bus drivers and others required to hold a commercial driver's license are subject to a drug and alcohol testing program that fulfills the requirements of the Federal regulations. The Board directs the Superintendent to develop a school bus driver drug testing program in compliance with State and Federal law and regulations.

[Adoption date: November 19, 2003]

LEGAL REFS.: OAC 3301-83-07
49 USC 31136, 31301, et seq.
49 CFR 382.115

DRUG TESTING FOR DISTRICT PERSONNEL REQUIRED TO HOLD A COMMERCIAL DRIVER'S LICENSE

School bus drivers and others required to hold a commercial driver's license are subject to a drug and alcohol testing program that fulfills the requirements of the Federal regulations.

The regulations reflect several requirements of the Federal drug testing regulations but are not intended in any way to modify or limit the procedures for drug and alcohol testing. District personnel must adhere to the detailed provisions of Federal regulations in administering the District's drug and alcohol program.

References to tests in these regulations include both drug and alcohol tests unless the context specifies otherwise. The terms drugs and controlled substances are interchangeable and have the same meaning. Drugs refer to marijuana, cocaine, opiates, phencyclidine (PCP) and amphetamines (including methamphetamines).

Pre-Employment Tests

A controlled substances test is administered before a driver performs any safety-sensitive functions for the District.

The test is required of an applicant only after he/she has been offered employment. Employment is conditional upon the applicant's receiving a negative drug test result.

An employee also may be exempt from the pre-employment drug test if he/she has participated in a drug testing program within 30 days prior to the application for employment and while participating in that program either was tested for drugs within the last six months (from the date of application) or participated in a random drug testing program in the previous 12 months, provided that the responsible administrator has been able to make all verifications required by law.

Post-Accident Tests

Alcohol and controlled substance tests are conducted in the time limits imposed by the Federal regulations after an accident on any driver who:

1. was performing safety-sensitive functions with respect to the vehicle if the accident involved loss of human life and/or
2. received a citation under State or local law for a moving-traffic violation arising from the accident.

No driver involved in an accident may use alcohol for eight hours after the accident or until he/she undergoes a post-accident alcohol test, whichever occurs first.

If an alcohol test is not administered within two hours or if a drug test is not administered within 32 hours after the accident, the responsible administrator prepares and maintains records explaining why the test was not conducted.

1 of 5

Tests conducted by authorized Federal, State or local officials fulfill post-accident testing requirements, provided they conform to applicable legal requirements and are obtained by the responsible administrator. Breath tests validate only the alcohol test and cannot be used to fulfill controlled-substance testing obligations.

Before any driver operates a commercial motor vehicle, the District provides him/her with post-accident procedures that make it possible to comply with post-accident testing requirements.

Random Tests

Tests are conducted on a random basis at unannounced times throughout the year. Random tests for alcohol are conducted just before, during or just after the performance of safety-sensitive functions. Random tests for drugs do not have to be conducted in immediate time proximity to performing safety-sensitive functions. Once notified of selection for drug testing, a driver must proceed to a collection site to provide a urine specimen.

Drivers are selected by a scientifically valid random process, and each driver has an equal chance of being tested each time selections are made. The number of bus drivers selected for random testing is in accordance with Federal regulations.

Reasonable Suspicion Tests

Tests must be conducted when a properly trained supervisor or District official has reasonable suspicion that the driver has violated the District's alcohol or drug prohibitions. This reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the driver's appearance, behavior, speech or body odors. The observations may include indications of chronic and withdrawal effects of controlled substances.

Alcohol tests are authorized for reasonable suspicion only if the required observations are made during, just before or just after the period of the workday when the driver must comply with alcohol prohibitions. If an alcohol test is not administered within two hours of a determination of reasonable suspicion, the appropriate administrator prepares and maintains a record explaining why this was not done. Attempts to conduct alcohol tests terminate after eight hours.

An alcohol test may not be conducted by the person who determines that reasonable suspicion exists to conduct such a test.

A supervisor or District official who makes a finding of reasonable suspicion must also make a written record of his/her observations leading to a reasonable-suspicion drug test within 24 hours of the observed behavior or before the results of the drug test are released, whichever is earlier.

Return-to-Duty Tests

A drug or alcohol test is conducted when a driver who has violated the drug or alcohol prohibition returns to performing safety-sensitive duties.

Employees whose conduct involved misuse of drugs may not return to duty in a safety-sensitive function until the return-to-duty drug test produces a verified negative result.

2 of 5

Employees whose conduct involved alcohol may not return to duty in a safety-sensitive function until the return-to-duty alcohol test produces a verified result that meets Federal and District standards.

Follow-Up Tests

A driver who violates the drug or alcohol prohibition and is subsequently identified by a substance abuse professional as needing assistance in resolving a drug or alcohol problem is subject to unannounced follow-up testing as directed by the substance abuse professional in accordance with law. Follow-up alcohol testing is conducted just before, during or just after the time when the driver is performing safety-sensitive functions.

Records

Employee drug and alcohol test results and records are maintained under strict confidentiality and released only in accordance with law. Upon written request, a driver receives copies of any records pertaining to his/her use of drugs or alcohol, including any records pertaining to his/her drug or alcohol tests. Records are made available to a subsequent employer or other identified persons only as expressly requested in writing by the driver.

Notifications

Each driver receives educational materials that explain the requirements of the Code of Federal Regulations, Title 49, Part 382, together with a copy of the policy and regulations for meeting these requirements. Representatives of employee organizations are notified of the availability of this information. The information identifies:

1. the person designated by the Board to answer driver questions about the materials;
2. categories of drivers who are subject to the drug and alcohol testing requirements;
3. sufficient information about the safety-sensitive functions performed by drivers to make clear for what period of the workday driver compliance is required;
4. specific information concerning driver conduct that is prohibited;
5. circumstances under which a driver is tested for drugs and/or alcohol;
6. procedures that are used to test for the presence of drugs and alcohol, protect the driver and the integrity of the testing processes, safeguard the validity of test results and ensure that test results are attributed to the correct driver;
7. the requirement that a driver submit to drug and alcohol tests administered in accordance with Federal regulations;

8. an explanation of what constitutes a refusal to submit to a drug or alcohol test and the attendant consequences;

9. consequences for drivers found to have violated the drug and alcohol prohibitions including the requirement that the driver be removed immediately from safety-sensitive functions and the procedures for referral, evaluation and treatment;
10. consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04 and
11. information concerning the effects of drugs and alcohol on an individual's health, work and personal life; external and internal signs and symptoms of a drug or alcohol problem; and available methods of intervening when a drug or alcohol problem is suspected including confrontation, referral to an employee assistance program and/or referral to administrative officials.

Each driver must sign a statement certifying that he/she has received a copy of the above materials.

The Board-designated administrator notifies a driver of the results of a pre-employment drug test if the driver requests such results within 60 calendar days of being notified of the disposition of his/her employment application.

The Board designee notifies a driver of the results of random, reasonable suspicion and post-accident drug tests if the test results are verified positive. The designee also tells the driver which controlled substances were verified as positive.

Drivers inform their supervisors if at any time they are using a controlled substance which their physician has prescribed for therapeutic purposes. Such a substance may be used only if the physician has advised the driver that it will not adversely affect his/her ability to safely operate a commercial motor vehicle.

Enforcement

Any driver who refuses to submit to post-accident, random, reasonable-suspicion or follow-up tests is not allowed to perform or continue to perform safety-sensitive functions.

A driver who in any other way violates District prohibitions related to drugs and alcohol receives from the Board designee the names, addresses and telephone numbers of substance abuse professionals and counseling and treatment programs available to evaluate and resolve drug- and alcohol-related problems. The employee is evaluated by a substance abuse professional who determines what help, if any, the driver needs in resolving such a problem.

Any substance abuse professional who determines that a driver needs assistance will not refer the driver to a private practice, person or organization in which he/she has a financial interest, except under circumstances allowed by law.

Before the driver is returned to safety-sensitive duties, if at all, the Board designee must ensure that the employee:

1. has been evaluated by a substance abuse professional;
2. has complied with any recommended treatment;
3. has taken a return-to-duty drug and alcohol test with a result indicating an alcohol concentration level of less than 0.02 and
4. is subject to unannounced follow-up drug and alcohol tests. (The number and frequency of such follow-up testing is as directed by the substance abuse professional and consists of at least six tests in the first 12 months following the driver's return to duty.)

(Approval date: November 19, 2003)

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

School bus transportation is provided for all officially approved transportation requests to and from student activities. The use of private vehicles for transportation of students, volunteers, teachers and other employees to and from student activities is discouraged. If the need arises, transportation by private vehicles is permitted only if previously approved by the appropriate administrator.

If it is necessary to use private vehicles, evidence must be presented to the appropriate administrator that the vehicle and driver are covered for liability, medical payments, physical damage and uninsured motorist liability. The Board maintains excess insurance through a nonownership liability endorsement to its bus fleet insurance policy covering all private vehicles used for transportation to and from student activities. This excess insurance provides compensation for injury or death to any student or authorized passenger caused by any accident arising out of or in connection with the operation of a private vehicle transporting students and other authorized passengers. The amounts and terms must be agreed upon by the Board and the insurance company.

[Adoption date: November 19, 2003]

LEGAL REFS.: ORC 3327.01; 3327.02; 3327.09

FOOD SERVICES MANAGEMENT/
FREE AND REDUCED-PRICE FOOD SERVICES

The Board operates a food services program in its schools. Food preparation is centralized for elementary, intermediate and secondary schools when appropriate.

Food services include breakfasts and lunches in all schools through participation in the National Child Nutrition Programs.

The food services staff cooperates with the principals of the schools in matters essential to the proper functioning of the food services program. The responsibility for control of students using the cafeteria rests with the building principal.

All prices set for school breakfasts, lunches and milk are subject to Board approval, except for a la carte food prices. The Food Services Supervisor sets these prices without Board approval.

As required for participation in the National Child Nutrition Programs, the Board agrees that:

1. breakfast and a "Type A" lunch are made available to students, provided at least one-fifth of the students are eligible under Federal law for free meals;
2. breakfast is made available in every school in which the parents of at least one-half of the children enrolled have requested that the breakfast program be established;
3. students who qualify receive free or reduced-price meals;
4. all meals must meet USDA nutritional standards;
5. the management of food services complies with all federal, state and local regulations and
6. a summer meal program is provided to students attending a state-mandated summer remedial program.

All students are expected to eat lunch at school and may not leave school grounds during the lunch hour, except when permission has been granted by the principal. Students are permitted to bring their lunches from home and to purchase milk and incidental items.

School lunch funds and other food service funds are kept in a special account.

The District provides for at least one employee, who has received instruction in methods to prevent choking and has demonstrated an ability to perform the Heimlich maneuver, to be present while students are being served.

Students with Special Dietary Needs

At the beginning of each school year, or at the time of enrollment, parents are responsible for communicating any special dietary needs of their child, including food allergies, to the District. Students with dietary needs that qualify as disabilities under law are provided reasonable accommodation.

Substitutions to regular school meals provided by the District are made for students who are unable to eat regular school meals due to a qualifying dietary need when that need is certified in writing by the student's physician. Substitute meals are provided in the most integrated setting appropriate to the special needs of the student.

The nature of the student's qualifying dietary need, the reason this need prevents the student from eating regular school meals (including foods to be omitted from the student's diet), the specific diet prescription along with the needed substitution must be specifically stated in the physician's statement. The District, in compliance with the USDA Child Nutrition Division guidelines, provides substitute meals to food-allergic students based upon the physician's signed statement.

The District develops and implements administrative regulations for the management of food-allergic students. Such regulations include, but are not limited to, school-wide training programs regarding food allergy education, staff development regarding food allergy identification and management, allergy emergency drills, strategies for the identification of students with life-threatening food allergies and management skills including avoidance measures, designation of typical symptoms and dosing instructions for medications.

FOOD SALE STANDARDS

Through its food service program, the Board has a responsibility to encourage students to form healthful eating habits. Many students tend to eat nonnutritious or “junk” foods, which contribute to tooth decay, obesity, diabetes and heart disease. The Board enforces standards governing the types of food sold in the schools and the time and place at which each type of food is sold. These standards are based on the following guidelines.

1. The types of food sold in the schools are determined as to their potential to contribute significantly to the daily nutritional needs of students and to enhance the District’s nutrition philosophy and nutrition education curriculum.
2. The time of day and place for the sale of food to students must be consistent with the nutrient intake needs and eating patterns of students and compatible with class schedules for schools within the District. Separate standards may be established for the types of food to be sold to staff members and for special or extracurricular events. The following restrictions should be enforced.

STUDENT WELLNESS PROGRAM

In response to the reauthorization of the Child Nutrition and Women, Infants and Children Act, the Board directs the Superintendent/designee to develop and maintain a student wellness program.

The student wellness program:

1. includes goals for nutrition education, physical activity and other school-based activities designed to promote student wellness;
2. includes nutrition guidelines for all foods available in the District during the school day in order to promote student health and reduce childhood obesity;
3. provides assurance that District guidelines for reimbursable school meals are, at a minimum, equal to the guidelines issued by the U.S. Department of Agriculture and
4. establishes a plan of implementation and evaluation, including designating one or more persons within the District with the responsibility for ensuring that the District is compliant with Federal law.

Development of the student wellness program must be a collaborative effort between parents, students, food service workers, administrators, the Board and the public.

Reading Community City School District, Reading, Ohio

FOOD ALLERGIES

The purpose of this policy is to establish a safe environment for students with food allergies and to support parents regarding food allergy management. In accordance with State law, it is the policy of the Board to provide all students, through necessary accommodations where required, the opportunity to participate fully in all school programs and activities.

The Board takes food allergies seriously and understands that food allergies can be life threatening. Recognizing that the risk of accidental exposure to foods can be reduced in the school setting, the District administration is committed to minimizing risks and providing a safe educational environment for food-allergic students. Students with dietary needs that qualify as disabilities under State and Federal law are provided reasonable accommodation.

Substitutions to regular school meals provided by the District are made for students who are unable to eat regular school meals due to a qualifying dietary need when that need is certified in writing by the student's physician. Substitute meals are provided in the most integrated setting appropriate to the special needs of the student.

The nature of the student's qualifying dietary need, the reason this need prevents the student from eating regular school meals (including foods to be omitted from the student's diet), the specific diet prescription along with the needed substitution must be specifically stated in the physician's statement. The District, in compliance with the USDA Child Nutrition Division guidelines, provides substitute meals to food-allergic students based upon the physician's signed statement.

The administration consults with parents, school nurses and other school employees, school volunteers, students and community members to gather information for the development and implementation of a food allergy plan. The plan includes, but is not limited to, school-wide training programs regarding food allergy education, staff development regarding food allergy identification and management, allergy emergency drills, strategies for the identification of students with life-threatening food allergies and management skills including avoidance measures, designation of typical symptoms and dosing instructions for medications.

COPYRIGHT

The Board conforms to existing United States copyright laws and maintains the highest ethical standards in the use of copyrighted materials for instructional purposes.

The Board encourages its staff to enrich the learning programs by making proper use of supplementary materials. It is the responsibility of the staff to abide by the copying procedures and obey the requirements of the law. Under no circumstances may employees of the District violate copyright requirements in order to perform their duties properly. The Board is not responsible for any violations of the Copyright Act by its employees.

Public Law 94-533, The Copyright Act, affects all employees because it sets guidelines regarding the duplication and use of all copyrighted materials – print, nonprint, music, computer software and others. The Superintendent is responsible for disseminating the guidelines for duplication and use of copyrighted materials to all employees.

Any employee who is uncertain as to whether the reproducing or use of copyrighted materials complies with the procedures or is permissible under law shall contact the Superintendent/designee.

[Adoption date: November 19, 2003]

LEGAL REFS.: U.S. Const. Art. I, Section 8
Copyright Act, 17 USC 101 et seq.

COPYRIGHT

Educational Use of Copyrighted Print Materials

1. Fair use

The fair use of copyrighted work for purposes such as criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship or research is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use, the factors to be considered include the:

- A. purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- B. nature of the copyrighted work;
- C. the amount and substantiality of the portion used in relation to the copyrighted work as a whole and
- D. effect of the use upon the potential market for or value of the copyrighted work.

2. Single copying for teachers

A single copy may be made of any of the following by or for a teacher at his/her individual request for his/her scholarly research or use in teaching or preparation to teach a class:

- A. a chapter from a book;
- B. an article from a periodical or newspaper;
- C. a short story, short essay or short poem, whether or not from a collective work or
- D. a chart, graph, diagram, drawing, cartoon or picture from a book, periodical or newspaper.

3. Multiple copies for classroom use

Multiple copies (not to exceed more than one copy per student in a course) may be made by or for the teacher giving the course for classroom use or discussion, provided that:

- A. the copying meets the tests of brevity, spontaneity and cumulative effect as defined below and
- B. each copy includes a notice of copyright.

1) Brevity

Poetry: (a) a complete poem if less than 250 words and if printed on not more than two pages or (b) from a longer poem, an excerpt of not more than 250 words.

1 of 7

Prose: (a) a complete article, story or essay of less than 2,500 words or (b) an excerpt of not more than 1,000 words or 10% of the work, whichever is less, but in any event a minimum of 500 words.

Each of the numerical limits stated in "poetry" and "prose" above may be expanded to permit the completion of an unfinished line of a poem or of an unfinished prose paragraph.

Illustration: one chart, graph, diagram, drawing, cartoon or picture per book or periodical issue.

Special work: certain work in poetry, prose or "poetic prose", which often combines language with illustrations, of less than 2,500 words.

A "special work" may not be reproduced in its entirety. However, an excerpt comprising not more than two of the published pages of a special work, and containing not more than 10% of the words found in the text thereof, may be reproduced.

2) Spontaneity

The copying is at the instance and inspiration of the individual teacher. The inspiration and decision to use the work, and the moment of its use for maximum teaching effectiveness, are so close in time that it would be unreasonable to expect a timely reply to a request for permission.

3) Cumulative effect

The copying of the material is for only one course in the school in which copies are made.

Not more than one short poem, article, story or essay, or two excerpts, may be copied from the same author, nor more than three from the same collective work or periodical volume, during one class term.

The limitations stated in the preceding two paragraphs shall not apply to current news periodicals and newspapers and current news sections of other periodicals.

The limitations as to single copying for teachers and multiple copies for classroom use are applicable.

4. Prohibitions

- A. Copying shall not be used to create, replace or substitute for anthologies, compilations or collective works. Such replacements or substitutions may occur whether copies of various works or excerpts therefrom are accumulated or reproduced and used separately.

- B. There shall be no copying of or from works intended to be “consumable” in the course of study or teaching. These include workbooks, exercises, standardized tests, test booklets, answer sheets and similar consumable material.
- C. Copying shall not:
 - 1) substitute for the purchase of books, publishers’ reprints or periodicals;
 - 2) be directed by higher authority or
 - 3) be repeated with respect to the same item by the same teacher from term to term.
- D. No charge shall be made to the student beyond the actual cost of the photocopying.

Educational Use of Copyrighted Music

- 1. Permissible uses
 - A. Emergency copying may be done to replace purchased copies which for any reason are not available for an imminent performance, provided purchased replacement copies shall be substituted in due course.
 - B. For academic purposes other than performance, single or multiple copies of excerpts of works may be made, provided that the excerpts do not comprise a part of the whole which would constitute a performable unit such as a section, movement or area, but in no case more than 10% of the whole work. The number of copies shall not exceed one copy per student.
 - C. Printed copies which have been purchased may be edited or simplified, provided that the fundamental character of the work is not distorted or that lyrics, if any, are not altered or added.
 - D. A single copy of recordings of performances by students may be retained by the educational institution or individual teacher.
 - E. A single copy of a sound recording (such as a tape, disc or cassette) of copyrighted music may be made from sound recordings owned by an educational institution or an individual teacher for the purpose of constructing aural exercises or examinations and may be retained by the educational institution or individual teacher. (This pertains only to the copyright of the music itself and not to any copyright which may exist in the sound recording.)
- 2. Prohibitions
 - A. Copying shall not be used to create, replace or substitute for anthologies, compilations or collective works.

- B. Copying of or from works intended to be “consumable” in the course of study or of teaching such as workbooks, exercises, standardized tests, answer sheets and similar material is prohibited.
- C. Copying shall not be used for the purpose of performance except as previously stated.
- D. Copying shall not be used for the purpose of substituting for the purchase of music except as previously stated.
- E. Copying without inclusion of the copyright notice which appears on the printed copy is prohibited.

Educational Use of Copyrighted Audio-Visual Material

- 1. Before reproducing small portions of sound recordings, filmstrips, slide sets, transparencies or motion pictures, or videotaping commercial television broadcasts, employees shall consult with the principal to determine whether the proposed action complies with the “fair use” principles of the Copyright Act.
- 2. School recordings may be made of certain instructional television programs telecast by the local Public Broadcasting Systems educational television station. Before recording the telecast, the following conditions shall be satisfied.
 - A. The monthly list of programs not licensed for recording shall be consulted. Any program listed shall not be recorded.
 - B. Recordings may be used in classroom or instructional settings as an educational activity or at a PTA meeting, Board meeting or similar activity.
 - C. Recordings shall be used only in the facilities of the District and shall not be loaned or made available outside of those facilities.
 - D. Recordings made from evening programs, which may be copied, shall be retained for no more than seven days following the telecast unless an extension is received in writing in advance. Daytime telecasts may be recorded and retained permanently unless otherwise notified.

Educational Use of Copyrighted Library Material

- 1. A library may make a single copy of unpublished work in order to replace it because it is damaged, deteriorated, lost or stolen, provided that an unused replacement cannot be obtained at a fair price.
- 2. A library may provide a single copy of copyrighted material at cost to a student or staff member.

- A. The copy must be limited to one article of a periodical issue or a small part of other material, unless the library finds that the copyrighted work cannot be obtained elsewhere at a fair price. Under the latter circumstances, the entire work may be copied.

- B. The copy shall contain the notice of copyright, and the student or staff member shall be notified that the copy is to be used only for private study, scholarship or research. Any other use subjects the person to liability for copyright infringement.
3. At the request of the teacher, copies may be made for reserve use. The same limits apply as for single or multiple copies as previously stated.

Copying Limitations

- 1. Circumstances arise when personnel are uncertain whether or not copying is prohibited. In those circumstances, the Superintendent shall be contacted. If the Superintendent is uncertain, he/she shall consult with the District's legal counsel.
- 2. The following prohibitions have been expressly stated in federal guidelines.
 - A. Reproduction of copyrighted material shall not be used to create or substitute for anthologies, compilations or collective works.
 - B. Unless expressly permitted by agreement with the publisher and authorized by District action, there shall be no copying from copyrighted consumable materials such as workbooks, exercises, test booklets, answer sheets or similar materials.
 - C. Employees shall not:
 - 1) use copies to substitute for the purchase of books, periodicals, music recordings or other copyrighted material, except as permitted by District procedure;
 - 2) copy or use the same items from term to term without the copyright owner's permission;
 - 3) copy or use more than nine instances of multiple copying of protected material in any one term;
 - 4) copy or use more than one short work or two excerpts from works of the same author in any one term or
 - 5) copy or use protected materials without including a notice of copyright. The following shall constitute a satisfactory notice:

NOTICE: THIS MATERIAL MAY BE PROTECTED BY
COPYRIGHT LAW.

- 3. Employees shall not reproduce or use copyrighted material at the direction of a District administrator without permission of the copyright owner.

Computer Software Copyright

The Board recognizes that computer software piracy is a major problem for the industry, and that violations of copyright laws contribute to higher costs and lessen incentives for publishers to

develop effective educational software. Therefore, in an effort to discourage software piracy and to prevent such illegal activity, the District will take the following steps.

5 of 7

1. The ethical and practical implications of software copyright violations will be provided to all employees and students using District computer facilities and software.
2. Employees and students will be informed that they are expected to adhere to the Copyright Act and all subsequent amendments thereto governing the use of software.
3. Wherever possible, efforts will be made to secure software from being duplicated from floppy disks, hard drives or networked systems.
4. Illegal copies of copyrighted software shall not be made or used on District equipment.
5. District administrators shall be designated as the only individuals who may sign license agreements for educational software used on District computers.
6. Documentation of licenses for software used on District computers will be located at the site where the software is being used.

Unsupervised Copy Equipment

The following notice, in large type, shall be affixed to all District copying equipment (Xerox, Thermofax, audiotape recorder, videotape recorder and copy camera):

NOTICE: THE COPYRIGHT LAW OF THE UNITED STATES GOVERNS THE MAKING OF COPIES OF COPYRIGHTED MATERIAL. THE PERSON USING THIS EQUIPMENT IS LIABLE FOR ANY INFRINGEMENT.

Library Copying for Students or Staff

1. The following notice, in large type, shall be posted prominently where copies are made available to students or staff:

NOTICE: THE COPYRIGHT LAW OF THE UNITED STATES GOVERNS THE MAKING OF COPIES OF COPYRIGHTED MATERIAL.

2. The following notice, in large type, shall be posted prominently where print copies are made available to students and/or staff:

WARNING CONCERNING COPYRIGHT RESTRICTIONS

THE COPYRIGHT LAW OF THE UNITED STATES GOVERNS THE MAKING OF COPIES OR OTHER REPRODUCTION OF COPYRIGHTED MATERIAL.

UNDER CERTAIN CONDITIONS SPECIFIED IN THE LAW, LIBRARIES AND ARCHIVES ARE AUTHORIZED TO FURNISH A PHOTOCOPY OR OTHER REPRODUCTION. ONE OF THESE SPECIFIED CONDITIONS IS THAT THE PHOTOCOPY OR REPRODUCTION IS NOT TO BE "USED FOR ANY PURPOSE OTHER THAN PRIVATE STUDY, SCHOLARSHIP OR RESEARCH." IF A USER MAKES A REQUEST FOR, OR LATER USES, A PHOTOCOPY OR REPRODUCTION FOR PURPOSES IN EXCESS OF "FAIR USE," THAT USER MAY BE LIABLE FOR COPYRIGHT INFRINGEMENT.

THIS INSTITUTION RESERVES THE RIGHT TO REFUSE TO ACCEPT A COPYING ORDER IF, IN ITS JUDGMENT, FULFILLMENT OF THE ORDER WOULD INVOLVE VIOLATION OF COPYRIGHT LAW.

(Approval date: November 19, 2003)

TELEPHONE SERVICES

District telephones are provided for official school use. In order to permit staff members to make necessary personal calls with minimum loss of time, certain telephones may be used for personal calls. Staff members making personal calls are responsible for and shall pay any long distance and/or toll charges.

Students are not to use the school office telephones, except in cases of emergency. Use of pay telephones by students while classes are in session is subject to the approval of authorized school personnel.

Cellular telephones may be provided to certain staff members who have:

1. administrative authority;
2. supervision of students during field trips or
3. supervision of students during athletic and other extracurricular activities, practices or events that meet away from District buildings.

The Board authorizes the Superintendent or his/her designee to develop administrative guidelines for the proper handling of use and charges.

DATA AND RECORDS RETENTION

All records¹ are the property of the District and are not removed, destroyed, mutilated, transferred or otherwise damaged or disposed of, in whole or in part, except as provided by law or under the rules adopted by the District Records Commission (Commission). Such records shall be delivered by outgoing officials and employees to their successors and shall not be otherwise removed, transferred or destroyed unlawfully.

The Commission is composed of the Board President, the Treasurer and the Superintendent and meets at least once every 12 months.

The functions of the Commission are to review applications for one-time records disposal and schedules of records retention and disposition submitted by any employee of the District. Records may be disposed of by the District pursuant to the procedure outlined below. The Commission may at any time review any schedule it has previously approved and may revise that schedule.

The Superintendent designates a "Records Officer" in each department/building who is responsible for all aspects of records retention within that department/building.

When District records have been approved for disposal, the Commission sends a list of such records to the Auditor of State. If he/she disapproves the action by the Commission, in whole or in part, he/she so informs the Commission within a period of 60 days, and these records are not destroyed. Before public records are disposed of, the Ohio Historical Society is informed and given the opportunity for a period of 60 days to select for its custody such public records as it considers to be of continuing historical value.²

¹Records include any documents devices or items, regardless of physical form or characteristic, created or received by or coming under the jurisdiction of the District which serves to document the organization, functions, policies, decisions, procedures, operations or other activities of the District. ORC Section 149.011

²The Historical Society may not review or select for its custody the records set forth in ORC Section 149.41(A) and (B).

INSURANCE MANAGEMENT

The Board has the responsibility to maintain an adequate and comprehensive insurance program covering its buildings and grounds, fleet of school vehicles and individuals discharging responsibilities for the District.

The Treasurer administers the total insurance program.

The District makes efforts to obtain insurance at the most economical cost, consistent with required coverage and service, through obtaining quotations or bids.
